## Emergency response

Taking swift action in cases of emergency is a life-saving matter. IDA Foundation has more than 15 years of experience in providing emergency health kits for emergency relief.

The kits are kept in stock and can thus be shipped directly upon request to the required destination, you can contact IDA Foundation 24 hours a day in case of emergency.

## Direct dispatch

IDA Foundation took immediate action following the Tsunami in Asia in 2004, the earthquake in Pakistan in 2005 and an armed conflict in Lebanon in 2006. Hundreds of Emergency health kits were flown in to the affected areas by order of the International Red Cross, the World Health Organization, Médecins Sans Frontières and other relief organisations.

## Effective emergency aid

It is extremely important that the correct products reach disaster areas. That is why IDA Foundation delivers emergency health kits according to WHO guidelines. The kit contents are based on epidemiological data, population profiles, disease patterns and certain assumptions based on experience gained in emergency situations. Each emergency health kit contains sufficient medical items to support at least 10,000 people for a period of 3 months.

## Interagency Emergency Health Kit (IEHK), 2006 edition

The concept of the emergency health kit has been adopted by many organisations and national authorities as a reliable, standardised, affordable, and quickly available source of essential medicines and medical devices urgently required in disaster situations.

In 2006 the World Health Organization determined the new appropriate composition of the emergency health kit to meet the current demands for priority health needs in disaster situations. In line with the not-for-profit mission, IDA Foundation supplies the IEHK at the lowest possible price and with a comprehensive QA/QC guarantee for all its pharmaceutical contents.

### IEHK 2006 from IDA Foundation

#### Quality assurance:

- complete QA/QC

#### Availability:

- standard in stock

#### Affordability:

- not-for-profit prices

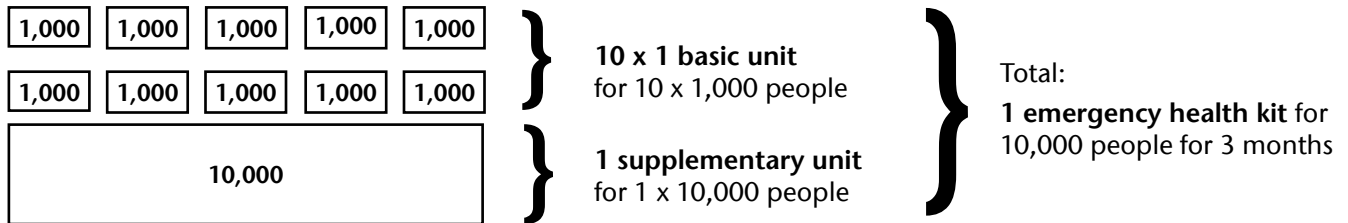

#### Customer service:

- 24hr emergency contact
- trilingual packing & information

# IEHK 2006

## Overview

The Interagency Emergency Health Kit is designed principally to meet the initial primary healthcare needs of a displaced population without medical facilities and is for use in the early phase of emergency. The kit is not designed and not recommended for the re-supply of existing healthcare facilities. The IEHK contains sufficient medical supplies to support at least 10,000 people for a period of 3 months.

### BASIC UNIT - IEHK 2006

#### General specifications

- ✓ for primary healthcare workers with limited training
- ✓ none of the items is contents of a Supplementary Unit
- ✓ each Basic Unit contains:
  - oral and topical medicines, none of which are injectable
  - medical devices, renewable
  - medical devices, equipment
  - module: antimalarials items for the treatment of uncomplicated malaria

### SUPPLEMENTARY UNIT - IEHK 2006

#### General specifications

- ✓ for professional health workers or physicians
- ✓ should be used with at least one or more Basic Units
- ✓ one Supplementary Unit contains:
  - medicines (MEDS)
  - essential infusions (INFS)
  - medical devices, renewable (RENEW)
  - medical devices, equipment (EQPT)
  - module: patient post-exposure prophylaxis (PEP)
  - module: malaria items
  - module: psychotropics (Pt)
  - module: narcotics (Nt) (can be replaced by tramadol)

840774	safety box for used syringes, needles, 5 ltr	2x	1	pce
167801	quinine sulphate 300mg, film coated	2x	1000	tabs

<sup>2</sup> Optional: if antimalarial medicines are not required, these can be left out

### SUPPLEMENTARY UNIT - MEDICINES

#### Box 11 (60x40x50 cm; 25 kg)

476501	benzathine penicillin 2.4 MIU, powder for injection	1x	50	vials
553700	oxytocin 10 IU/ml, 1ml, for injection	2x	100	amps
687505	water for injection 10ml		50x 20	amps
165400	artemether 20mg/ml, 1ml, for injection <sup>2</sup>	2x	100	amps
165502	artemether 80mg/ml, 1ml, for injection <sup>2</sup>	15x	5	amps
168000	quinine di-HCL 600mg/2ml, for injection <sup>2</sup>	1x	10	amps
253400	phenobarbital 50mg <sup>3</sup>	1x	1000	tabs
274200	diazepam 10mg/2ml, for injection <sup>3</sup>	2x	100	tabs
028600	morphine sulphate 10mg/ml, 1ml, for injection <sup>4</sup>	5x	10	amps
160107	azithromycin 250mg, blister <sup>5</sup>	34x	6	caps
502812	cefixime 200 mg, blister <sup>5</sup>	1x	100	tabs
227204	pregnancy test hCG strip 2,5mm <sup>5</sup>	50x	1	test
224700	levonorgestrel 0.75mg <sup>5</sup>	50x	2	tabs
310606	zidovudine (AZT) 300mg + lamivudine (3TC) 150mg, blister <sup>5</sup>	50x	60	tabs

<sup>2</sup> Optional: if antimalarial medicines are not required, these can be left out

<sup>3</sup> Pt (Psychotropic) license required; Optional: medicine can be left out

<sup>4</sup> Nt (Narcotic) license required; optional: can be replaced by 30 amps of Tramadol HCl 100mg/2ml

<sup>5</sup> Optional: if PEP (Post-Exposure Prophylaxis) medicines and materials are not required, these can be left out

#### Box 12 (60x40x50 cm; 32 kg)

042510	atropine sulphate 1mg/ml, 1ml, for injection	5x	10	amps
477001	benzylpenicillin 5 MIU, powder for injection	5x	50	vials
601504	calcium gluconate 1g/10ml, for injection	1x	4	amps
012010	epinephrine (adrenaline) 1mg/ml, 1ml, for inj	5x	10	amps
233500	hydrocortisone 100mg, for injection	1x	50	vials
633500	ketamine 50mg/ml, 10ml, for injection	1x	25	vials
153000	miconazole 10mg muco-adhesive buccal tab, blister	1x	7x50	tabs
087801	promethazine HCl 50mg/2ml, for injection	1x	50	amps
377206	silver sulfadiazine 1% cream, 50 gram	3x	10	tubes
687505	water for injection 10ml		50x 20	amps

#### Box 13 (60x40x50 cm; 44 kg)

381503	atenolol 50mg	1x	1000	tabs
501401	ceftriaxone 1g powder, for injection	80x	10	vials
262503	chlorpromazine HCl 50mg/2ml, for injection	2x	10	amps
151301	clotrimazole vaginal, 500mg, blister	1x	100	tabs
477500	cloxacillin 500mg	1x	1000	caps
