## PRODUCT LEAFLET

PRODUCT CODE 8510-TY2-00  
DESCRIPTION Non-contact thermometer electronic, infrared 5-15 cm  
UNIT OF MEASURE 1 piece

DIMENSIONS Packaged: 186 mm x 132 mm x 70 mm  
Unpackaged: 149 mm x 77 mm x 43 mm  
Net weight: 221 g (including batteries, bag and instructions)

PRODUCT DESIGN Thermometer has following features:  
Easy and safe, selectable options for °C or °F, selectable options for body or surface temperature, memory storage of the last 32 measurements, trigger lock, automatic data hold, backlight LCD display, set alarm value, measuring distance 5-15 cm.  
Product comes with battery, full instructions (EN/FR/ES) and protective bag.

INTENDED USE Thermometer is specially designed to measure the body temperature of infants and adults (32 to 42.5°C / 86 to 108°F) in various ambient temperatures and conditions without contacting the human body.

INSTRUCTION FOR USE

1. Install the batteries, taking care to ensure the correct polarity.
2. When using for the first time or when new batteries are inserted, wait for 10 minutes for the instrument to warm up to room temperature.
3. If the device is not used for an extended period there will be a short delay (1-2 secs) while the device measures the room temperature.
4. Aim the sensor towards the forehead (see the diagram for correct positioning), at a distance of 5 to 15 cm (2 to 5.9 inches).

5. Press the measurement trigger and the recorded temperature will be displayed immediately. Remember to consider the points in section 2 to improve the accuracy of your readings.
6. If difficulty is experienced in obtaining consistent readings, it is possible to measure the temperature behind the patient's ear lobe. Similarly, make sure the area is not covered by hair, perspiration, cosmetics or clothing.

Important: The forehead temperature differs from the internal body temperature.  
To obtain the correct core temperature always use in body mode.

DISPOSAL Not applicable

REGULATORY APPROVAL ISO 13485  
CE certificate as per MDD (93/42/EEC) Risk Class IIa

---

APPLICABLE STANDARDS	Product is complying with the following standards: EN 12470-5 and ASTM E1965-1998 EN 980 EN 1041 EN 60601-1 EN 60601-1-2
----------------------	---

---

STORAGE	Store between 0°C to +50°C, RH≤85% non-condensing
---------	---
