

PPE COVID-19

PRODUCT LEAFLET

PRODUCT CODE Z213-TY3-08
DESCRIPTION Face shield, 22x32 cm
UNIT OF MEASURE 10 pieces

DIMENSIONS Length 22 cm
Width 32 cm

PRODUCT DESIGN Double sided antifog, anti-static, no-glare shield. Light weight, comfortable and ready to wear. Foam band absorbs sweat and provides extra room for eyeglasses and goggles. Vented foam design increases the air flow and fitting comfort. Excellent protection against potential contamination from blood pathogen, body fluid and harmful chemical splash. Reusable, shield may be rinsed with water or alcohol. Made from anti-fog PET, foam, and elastic band. The elastic band contains natural rubber latex.

INTENDED USE Protects healthcare worker who needs facial protection from blood splash and pathogens.

INSTRUCTION FOR USE The outer layer of each face shield is covered with a protective film to prevent scratching of the shield. Please remove the protective film before use. If used in infectious diseases it may be re-used only if correct protocols are in place to prevent (cross) contamination. Otherwise dispose after each use. The transparent shield may be disinfected with alcohol (70% ethanol or isopropanol).

DISPOSAL Dispose as medical waste in accordance with hospital, administrative and/or local government regulations and policies.

REGULATORY APPROVAL Approved in EU (CE) as per EU Medical Device Directive (declaration of conformity as per MDD 93/42/EEC, risk class I)
