

IDA KIT PORTFOLIO

PROVIDING HEALTHCARE ORGANISATIONS
WITH THE RIGHT MEDICINES AND MEDICAL
PRODUCTS TO TREAT SPECIFIC CONDITIONS

STANDARDISED AND CUSTOM-MADE KITS

Kits help create standardisation in healthcare delivery, resulting in efficient packing and delivery of medicines and medical goods. IDA supplies standardised and custom-made kits to help our customers quickly set up and roll out their emergency response or to execute health specific projects.

The following kits offered by IDA are designed according to WHO requirements (cholera, paediatric and measles kits) and UN and humanitarian agencies requirements (IEHK 2017). All kits follow a modular set-up and can be ordered as a kit or as separate modules.

INTERAGENCY EMERGENCY HEALTH KIT 2017

The Interagency Emergency Health Kit (IEHK) 2017 is primarily intended for displaced populations affected by emergencies, who have limited access to routine health care services.

A complete emergency health kit contains 10 basic units and one of all supplementary units, and includes medicines, disposables, and instruments to meet the needs of 10.000 people for three months.

The full kit or kit modules can also be used for the initial supply of primary health care facilities where the normal system of provision is interrupted. However, it is not intended as re-supply or to replace existing medical supply chain mechanisms, as this may result in access stock of items or medicines which are not needed.

product code	description	unit of measure
A070-000-02	IEHK 2017 Basic medicines, 1 module	1 kit
A071-000-02	IEHK 2017 Basic malaria, 1 module	1 kit
A072-000-02	IEHK 2017 Basic renewable and equipment, 1 module	1 kit
A073-000-02	IEHK 2017 Supplementary medicines, 1 module	1 kit
K074-000-02	IEHK 2017 Supplementary controlled medicines, 1 module	1 kit
A075-000-02	IEHK 2017 Supplementary medicines cold chain, 1 module	1 kit
A076-000-02	IEHK 2017 Supplementary malaria, 1 module	1 kit
A079-000-02	IEHK 2017 Supplementary equipment, 1 module	1 kit
A078-000-02	IEHK 2017 Supplementary renewable, 1 module	1 kit
A077-000-02	IEHK 2017 Supplementary PEP, 1 module	1 kit
A080-000-02	IEHK 2017 Supplementary documentation, 1 module	1 kit

CHOLERA KITS 2020

The cholera kits are designed to support the first month of the initial response to an outbreak. Each type of kit (treatment of 100 cases) has been adapted to the specific use and needs required in various health settings during an outbreak i.e., central, peripheral and community level.

product code	description	unit of measure
A111-002-02	(Kit Cholera Central) Drugs (1.1), 1 module	1 kit
A112-002-02	(Kit Cholera Central) Renewable supplies (1.2), 1 module	1 kit
A113-002-02	(Kit Cholera Central) Equipment (1.3), 1 module	1 kit
A114-002-02	(Kit Cholera Central) Logistic (1.4), 1 module	1 kit
A115-002-02	(Kit Cholera Periphery) Drugs (2.1), 1 module	1 kit
A116-002-02	(Kit Cholera Periphery) Renewable supplies (2.2), 1 module	1 kit
A117-002-02	(Kit Cholera Periphery) Equipment (2.3), 1 module	1 kit
A118-002-02	(Kit Cholera Periphery) Logistic (2.4), 1 module	1 kit
A119-002-02	(Kit Cholera Community) Drugs (3.1), 1 module	1 kit
A120-002-02	(Kit Cholera Community) ORP Community-based care (3.2), 1 module	1 kit
A128-002-02	Glucometer 300 test and lancets, 1 module	1 kit

product code	description	unit of measure
A121-002-02	(Kit Cholera Hardware) Shelter (6.1), 1 module	1 kit
A122-002-02	(Kit Cholera Hardware) Water (6.2), 1 module	1 kit
A123-002-02	(Kit Cholera Hardware) Sanitation (6.3), 1 module	1 kit
A124-002-02	(Kit Cholera Hardware) Support (6.4), 1 module	1 kit
A125-002-02	(Kit Cholera Hardware) Fencing (6.5), 1 module	1 kit
A126-002-02	(Kit Cholera Hardware) Motor pump (6.6), 1 module	1 kit
A127-002-02	(Kit Cholera Hardware) Water toolbox, basic (6.7), 1 module	1 kit

PAEDIATRIC KIT INCLUDING SAM/MC CHILDREN 2020

The PED/SAM kit is specifically designed for children and provides suitable medicines, renewables, and equipment to treat common childhood illnesses including severe acute malnutrition (SAM) with medical complications (MC). One kit can treat 50 children with severe acute malnutrition and medical complications. The kit can also be used in paediatric wards (10-15 beds) for 3 months.

product code	description	unit of measure
A081-000-02	Kit PED-SAM 2020 Medicines SAM, 1 module	1 kit
A082-000-02	Kit PED-SAM 2020 Medicines PED oral, 1 module	1 kit
A083-000-02	Kit PED-SAM 2020 Medicines PED injectables, 1 module	1 kit
K084-000-02	Kit PED-SAM 2020 Medicines PED controlled, 1 module	1 kit
A085-000-02	Kit PED-SAM 2020 Medicines malaria, 1 module	1 kit
A086-000-02	Kit PED-SAM 2020 Renewables, 1 module	1 kit
A087-000-02	Kit PED-SAM 2020 Equipment, 1 module	1 kit

MEASLES KIT 2021

The measles kit 2021 is specifically designed to prepare for and support the treatment of associated complications in non-severe and severe cases during a measles outbreak. The kit modules contain essential medicines, supplies and equipment for the management of clinical suspected and severe measles cases.

product code	description	unit of measure
A133-000-02	(Kit Measles 2021) Medicines complex cases	1 kit
K134-000-02	(Kit Measles 2021) Medicines paediatric controlled	1 kit
A135-000-02	(Kit Measles 2021) Medicines malaria	1 kit
A136-000-02	(Kit Measles 2021) Renewables	1 kit
A137-000-02	(Kit Measles 2021) Equipment	1 kit
A138-000-02	(Kit Measles 2021) Medicines & supply basic cases	1 kit

CUSTOM-MADE KITS

IDA also offers custom-made kits on request. We help our customers with the composition and selection of the right kit content to meet their specific requirements. Examples of custom-made kits we have assembled are the Emergency Health Kit, the Essential Drugs Kit, the PEP Kit, the Nutrition Kit, the Malaria Kit (children & pregnant women), and the Midwifery Kit.

IDA'S QUALITY SYSTEM

We believe that health providers worldwide must have confidence in the quality of the products they give to their patients. To ensure our customers receive the best products and services, we have a comprehensive Quality Assurance system in place.

Our process includes risk assessment of production sites, review of product dossiers, and evaluation of the product's past performance, safety, and efficacy.

In addition, we provide our suppliers with auditing and advice, so that they can meet our high standards. With these processes in place, we can guarantee that our products and services are of the highest quality.

IDA has been successfully audited by:

- Dutch Ministry of Health
- ECHO Humanitarian Procurement Centre (HPC)
- USAID/BHA wholesaler A status
- Bureau Veritas for ISO 9001 and ISO14001
- Ministry of Health and Prevention (MOHAP), UAE

KITTING AND WAREHOUSING IN DUBAI

The composition and logistics of kits can be complex. Therefore, IDA's kitting facility is strategically located in Dubai close to both airport and seaport - at the cross-road between Asia, Africa, and Europe - connecting the supply chain consisting of manufacturers, customers and end destinations.

This ensures fast shipments to any location, especially during emergency response. It is also close to the International Humanitarian City, a logistics centre for the distribution of humanitarian aid, where major global humanitarian organisations have local offices to quickly respond to global crises.

Aside from a large kit production capacity, the facility is also equipped to stock large numbers of kit components and kits, allowing us to not only respond quickly in the event of an emergency, but also to assemble (non-emergency) custom-made kits for our customers.

Key benefits

- Strategic global location including multiple transportation options - close to logistics hubs of humanitarian agencies
- Better and faster access to strategic suppliers and customers
- Significant decrease in transit times
- Minimising CO2 emissions in the supply chain
- Increased logistics storage and kitting capacity in a GxP* regulated warehouse

* GSDP - Good Storage and Distribution Practice

EXPERIENCE

IDA has gained extensive experience over the years by working with international NGO's, UN organisations and intergovernmental organisations, providing kitting solutions to help them execute emergency response projects, often under challenging circumstances in remote and hard-to-reach areas.

Supplying kits requires experience in managing complexities in sourcing, procurement, quality assurance, logistics, kit assembly and warehousing. To successfully manage our kit projects and activities, we have the necessary systems, supplier management tools and logistics knowledge in place, all supported by our stringent QMS (quality management system).

WHY CUSTOMERS CHOOSE IDA AS THEIR KITTING PARTNER

- **TRUST**
Fair priced quality products
- **GLOBAL REACH**
Strategic kitting location & global partners
- **CUSTOMER FOCUS**
Specialised & dedicated teams
- **ACCESS**
Stockkeeping of kits & components
- **ONE-STOP-SHOP**
End-to-end services
