

MEASLES

KIT 2021

KIT INFORMATION

The measles kit 2021 is specifically designed to prepare for and support the treatment of associated complications in non-severe and severe cases during an measles outbreak. The kit modules contain essential medicines, supplies and equipment for the management of clinical suspected and severe measles cases.

The kit consists of 6 modules in total, of which 5 modules have the same content as the PED/SAM 2020, but are labled 'kit Measles 2021' when used a part of this specific kit. The module for mild cases is a new addition to the Measles kit 2021.

MEASLES KIT MODULES

Medicines for severe cases module

For management of 50 complicated cases for hospitalisation/ inpatient treatment.

The module contains several oral and injectable antibiotics, medicines to treat diarrheas and vitamin A supplements.

Controlled medicines module

Contains controlled medicines such as diazepam, morphine, and midazolam in paediatric formulations. An import license permit from the Ministry of Health is mandatory to be able to receive this module.

Malaria medicines module

Contains malaria oral and injectable medicines. The medicines in this module are to treat about 150 cases of non-complicated malaria (60 babies and 90 infants).

Only to be used for managment of malaria in endemic areas.

Supplies and renewables module

Contains supply and renewables such as gauze, bandages, syringes, IV line and reusable surgical tunic. This module goes along with the medicines for sever cases module.

Equipment module

Contains various equipment such as a scale, stethoscope, glucometer and a haemoglobinometer starter kit.

Basic medicines for mild cases module

For the management of 20 non-severe (mild) cases for outpatient treatment. It contains medicines to be used at primary healthcare. The module does not contain any injectables.

Glucometer module

Contains a glucometer with 300 strips and 300 lancets. The module can be used in the paediatric ward or can be given to one diabetic patient.

IDA MODULE CODES

The kit follows a modular set-up and can be ordered as a complete kit or as separate modules.

A133-000-02	(Kit Measles 2021) Medicines complex cases
K134-000-02*	(Kit Measles 2021) Medicines paediatric controlled
