

PRODUCT LIST

FAMILY PLANNING

IDA'S PRODUCT RANGE

Improving reproductive, maternal, newborn and child health (RMNCH) not only benefits the mother and her (newborn) child, but it also strengthens families and communities.

To complement our RMNCH product range IDA offers a variety of medicines and supplies for reproductive health, increasing access to contraceptives and other family planning related products.

WHY ORDER WITH IDA

The high-quality products offered by IDA are available from multiple sources allowing us to order these products for our customers with competitive pricing, short lead-times and smaller quantities if required.

Our services cover the entire supply chain, from order to delivery. By working with a reliable network of global partners and local agents and distributors we ensure global reach.

IDA'S QUALITY SYSTEM

We believe that health providers worldwide must have confidence in the quality of the products they give to their patients. To ensure our customers receive the best products and services, we have a comprehensive Quality Assurance system in place.

Our process includes risk assessment of production sites, review of product dossiers, and evaluation of the product's past performance, safety, and efficacy.

In addition, we provide our suppliers with auditing and advice, so that they can meet our high standards. With these processes in place, we can guarantee that our products and services are of the highest quality.

IDA complies with the WHO Model Quality Assurance System (MQAS) for Procurement Agencies and holds the following certifications:
